

# Network Technologies

## Group Report

*November 19, 2024*

### Team members:

Maryna Borovyk, Sofiia Tretiak, Illia Pastushok

### *What was done?*

1. New GitHub repository was created due to permission errors, which we couldn't resolve: <https://github.com/borovykmary/WalkExplorer>
2. Mockup/prototype base created; main page not finished yet:

<https://www.figma.com/design/z4vxVOfbAvjnYKhdvFqK1s/Walk-Explorer?node-id=0-1&node-type=canvas&t=Y9GnxkAbw3ZMJeo3-0>

3. EER diagram created(docs folder on GitHub)
4. Database created and hosted on <https://supabase.com/dashboard/project/fyxjuzfbmorzshodobaq>
5. Tables according to EER diagram added to database(develop branch)
6. Initial frontend was implemented on branch basic\_front:
  - Landing page view
  - Login/Register page view
  - Profile view
7. Environment variables established, initial map box screen implemented.
8. Route generation algorithm implementation started
